Air Pollution Control Permit Application

Compliance Certification - Method of Compliance (FORM CCM)

Complete this form for each specific and generic applicable requirement. If the methods of compliance for an applicable requirement vary from emission unit to emission unit, complete a separate form for each set of methods.

A. Identification of the applicable requirement and the emission units where it applies

Emission unit ID(s) _____

Applicable requirement (cite and describe in detail) _____

B. Description of Methods for Complying with the Applicable Requirement

Indicate each method for assuring compliance with the applicable requirement described above on a separate line below. Identify the type of method and describe the method briefly.

Method of Compliance (monitoring, testing, recordkeeping, or reporting)	Description of Method of Compliance
